Peachtree Photo Lookup is a fast, easy to use software tool (developed by BEST), which adds photo lookup capability to your Peachtree accounting software. With this tool, Peachtree users can view photos of Peachtree items automatically. Item photos can be displayed in Peachtree screens including "Maintain Inventory Items", "Quotes", "Sales Orders", "Proposals", "Sales/Invoicing", "Purchase Orders" and "Purchase/Receive Inventory". It helps Peachtree users to manage items efficiently and accurately, especially when you have a large number of "similar" items in your transactions. A picture tells a thousand words.
